

2010 Santa Clara Westside LL

Game Day Field Volunteer

- This volunteer is tasked with prepping the field before and after each home game so that the Manager/Coaching staff is relieved of these duties in order to spend more time preparing the children for play. These volunteers are required to perform such physical tasks as:
- Dragging and watering down the infield before play
- Dragging the infield after the conclusion of play
- Adding clay as needed to pitcher's mound, practice mounds, and batter's box
- Lining field foul lines, batter's box and catcher's box.
- Inspecting the outfield for any obstructions or hazards (such as holes), and either fixing them before the game or reporting them to the Field Coordinator.
- Ensuring a safe and clean playing field for the children – including clearing any trash/refuse from the fields and dugouts both before and after play
- Training is available and encouraged before the season begins. The goal is to have two (2) Game Day – Field Prep volunteers per team (for a total of four (4) volunteers each game) who will share the responsibility of completing this task each game.
